

Washington DeafBlind Program

Our Services

We are here to partner with your team and family on next steps for children and youth, from birth to 21 years. Our team understands the uniqueness of deafblindness and the need for individualized supports. Reach out to learn more.

Birth to Age 3

- Understand impact of vision, hearing, touch on development
- Assess child's strengths for learning
- Explore ways to communicate during daily routines

Preschool Transition

- Help with assessment of child's strengths and needs
- Plan for functional IEP goals and preschool services
- Ongoing support and training for preschool team

Kindergarten–Middle School

- Improve access to academic content
- Help IEP team and family with meaningful assessment & goals
- Promote communication, language, and literacy via key practices

*It's never too late
and never too early
to plan for daily life
after high school.*

High School and Beyond

For students between the ages 14-21, our transition services are intended to support students and teams around the continued development of:

- Communication and language
- Community engagement
- Self-advocacy skills
- IEP transition goals
- Navigation of opportunities and supports for life after high school
- Vocational planning
- Post-Secondary education planning
- Connecting the student, family and team with partnering transition agencies (DVR, DSB, DBSC, HKNC)
